1	SS-1-1	Environmental and socio-cultural factors of gender-based differences in access to water, sanitation and hygiene in south-south Nigeria	University of Uyo, Nigeria: WaSH-GENDER Research Team
2	SS-1-2	Global water-climate-human nexus modeling based on process upscaling	Institute of Geographic Sciences and Natural Resources Research, Chinese Academy of Sciences
3	SS-1-4	Managed Aquifer Recharge: A Proven Technology to Improve Water Security	Danish Environmental Protection Agency (DEPA)
4	SS-1-6	Managing the Water-Energy-Food-Ecosystem Nexus in the Yellow River Basin(YRB)	Center for Industrial Development and Environmental Governance, Tsinghua Univ (CIDEG) / China Energy Modeling Forum (CEMF)
5	SS-1-8	Ecosystem management as a tool for sustainable water management in a changing environment – the case of the Yellow River basin in China	Asian Development Bank (ADB)
6	SS-1-9	Green economic development and ecological protection – the Yangtze River Economic Belt Initiative	Asian Development Bank (ADB)
7	SS-1-10	Optimal crop distribution under climate-water spatiotemporal changes	Peking University
8	SS-1-11	Adaptive Water Resources Management Under Changing Environment	State Key Laboratory of Water Resources Engineering and Management, Wuhan University
9	SS-1-12	A NEW VISION FOR INTEGRATED WATER RESOURCE MANAGEMENT: A Systems Approach to Delivering Water to Society	Texas A&M University
10	SS-1-13	Soil for Society Network	Texas A&M University
11	SS-1-14	Water Security and Cities	IWRA and i-WSSM
12	SS-1-15	Water Security and Climate Adaptation	IWRA and i-WSSM
13	SS-1-16	Characterizing hydrological response in a changing environment	Wuhan University
14	SS-1-17	Integrated Water and Environment Management Based on ET/EC/ES Target Values	Tsinghua University
15	SS-1-19	Indigenous Peoples Knowledge in water transmission and management IWRA and UNESCO Joint Session	IWRA
16	SS-1-20	Hydro-meteorological extremes and urban sustainable development in a changing environment	Wuhan University
17	SS-1-22	Challenges and Response Strategies for Water Resources in Islands and Coastal Regions Under Changing Climate	Sun Yat-sen University, China
18	SS-1-23	Centralization of Youth Initiatives in Digitalizing and Circularizing Water Sustainability	Indonesian Green Action Forum
19	SS-1-25	Implementing the 2030 Sustainable Development Agenda - Sustainable Water Resource Utilization and Green Development in Hunan	People's Government of Chenzhou City
20	SS-1-29	Ecohydrology: Harmonising Water for Humans and Nature	UNESCO HQ Paris

No	SS No	Title	Organisation
21	SS-2-1	The Forum on High-Quality Development of National Water Network and South-to-North Water Diversion	China South-to-North Water Diversion Group
22	SS-2-2	Tackling challenges in water resource in a changing climate	Future Earth Global Secretariat Hub China
23	SS-2-3	Advanced Technology on Un-conventional Water Allocation and Utilization	Research Center of Seawater Desalination and Unconventional Water Resources Development and Utilization of Hohai University
24	SS-2-4	Advanced membrane technology for efficient water treatment	Tongji University
25	SS-2-8	Smart Water Management in China: state of the art technologies and policy developments	IWRA&School of Civil Engineering at Tianjin University
26	SS-2-10	Explore Diversification of Water Services	SUEZ Group
27	SS-3-1	Advance in Flood Disaster Assessment and Risk Management	Nanjing University
28	SS-3-2	Debate – Flooding: A social issue? A natural science challenge? An engineering problem?	The International Conference on Flood Management (ICFM)
29	SS-3-4	Promoting Investment in Disaster Risk Reduction and Climate Change Adaptation: Policies and Innovative Approaches for a Resilient Future	Japan Internaitonal Cooperation Agency
30	SS-3-5	Nature-based Solutions for water-related disaster prevention and mitigation	China Institute of Water Resources and Hydropower Research
31	SS-2-9	Sustainable Agriculture Water Management	Sichuan Dujiangyan Water Conservancy Development Center
32	SS-3-6	Improving Resilience of Water Infrastructure projects for extreme events	Nanjing Hydraulic Research Institute
33	SS-3-7	Water Ecological Restoration in Water Shortage Regions	The Society for Ecological Rehabilitation of Beijing
34	SS-3-9	Climate Change Risk and Countermeasures: Building Resilience for Sustainable Development	Centre for Water and Climate Adaptation (CWCA), Asian Institute of Technology (AIT), Thailand
35	SS-4-1	Clean water: how to monitor and improve the quality of surface water	Danish Environmental Protection Agency (DEPA)
36	SS-4-2	Wetland ecohydrology and water resources management	Northeast Institute of Geography and Agroecology, Chinese Academy of Sciences
37	SS-4-5	Nature-based Solutions for Water Security and Ecological Security	International Network of Basin Organizations (INBO)
38	SS-4-6	Mainstreaming Ecological Restoration in freshwater ecosystems: insights from law, practice, and research around the world.	Tongji University
39	SS-4-7	Management of Combined Sewer Overflow (CSO) towards climate resilient city	The Society for Ecological Rehabilitation of Beijing
40	SS-4-9	Green Hydropower and Sustainable Development	International Center on Small Hydro Power (ICSHP)
41	SS-4-18	Durable Protection and Finance Innovation for Water and Freshwater Ecosystem	The Nature Conservancy
42	SS-4-19	Harmonizing Waterscapes: Water Environment Integrated Governance for Eco-Sustainable Futures	Shanghai Investigation, Design & Research Institute Co., Ltd.
43	SS-5-1	Building Collective Prosperity through Optimally-Utilized Water Reservoir Ecosystems	Anji County People's Government

No	SS No	Title	Organisation
44	SS-5-2	Development and Application of Digital Twin Technology In Water and River Management	CISPDR Corporation
45	SS-5-3	Sustainability and a water-wise energy transition under Dual Carbon Target	China Institute of Water Resources and Hydropower Research (IWHR)
46	SS-5-4	Efficient utilization and protection of hydro (wind and solar) resources in the Yalong River Basin	Yalong River Hydropower Development Company, Ltd.
47	SS-5-5	Towards Advancing in the NBS (Nature-Based Solutions) Sector	IWRA
48	SS-5-7	Harnessing Digital Infrastructures and Green Solutions to Strengthening Climate Resilience	Asian Infrastructure Investment Bank
49	SS-5-8	Blue Horizons Mongolia: Pioneering Sustainable Urban Water Projects	IWRA Mongolia Chapter
50	SS-6-1	The Smart Water Cities Certification: helping cities to become smart and sustainable	IWRA&K-water
51	SS-6-2	China's Groundwater: Path to Sustainable Groundwater Development under Intensive Human Activities	General Institute of Water Resources and Hydropower Planning and Design, MWR
52	SS-6-3	Governance and Protection of Major Rivers and Lakes	Changjiang Water Resources Commission of the Ministry of Water Resources (CWRC)
53	SS-6-4	The Role of Young Professionals in Achieving Carbon Neutrality by 2050	Asia Water Council Young Professionals (AWCYP)
54	SS-6-6	Charting a Path to 2030 and Beyond: exploring how convergent rules of international law contribute to enhanced transboundary water cooperation	International Water Law Academy
55	SS-6-7	The complex issue of 'Implementation' – a call for a transformative international water law approach to transboundary water cooperation	International Water Law Academy, CIBOS, Wuhan University
56	SS-6-8	Smart Water Management in Large River Basins	Wuhan University, China
57	SS-6-9	Economic and Ecological Regulation of Cascade Hydropower Stations within the Framework of "Yangtze River Economic Belt"	China Three Gorges University
58	SS-6-13	Shared and Innovative Water Information Systems for an Improved Water Resources Management at National and Basin Levels	International Network of Basin Organizations (INBO)
59	SS-6-15	Water for All, All for Water - Innovative Tools and Practices of Water Stewardship Collective Actions for Climate-resilient Future	World Wide Fund for Nature (WWF)
60	SS-6-16	Developing government incentives to scale up private sector adoption of credible water stewardship	Alliance for Water Stewardship
61	SS-6-17	Governing the Water-Energy-Food Nexus	Texas A&M University / IWRA
62	SS-6-18	Partnership models for water resources monitoring and watershed management	Global Water Partnership Organisation
63	SS-6-19	Groundwater Governance: Challenges, Opportunities, and Best Practices	International Association for Water Law
No	SS No	Title	Organisation

64	SS-6-22	Regional groundwater cycling, evolution and environment	Institute of Hydrogeology and Environmental Geology, Chinese Academy of Geological Sciences
65	SS-6-23	Building climate-resilience of mountain communities	IWRA
66	SS-6-24	Water security and high-quality development of Yellow River basin	Yellow River Conservancy Commission of the Ministry of Water Resources
67	SS-6-26	The Management of Freshwater on Islands: Unique Challenges or Common Opportunities-An Introductory Session presenting the I IWRA Congress on Freshwater and Islands in September 2024	The Faroese Geological Survey
68	SS-7-2	Engaging Young Professionals for Gender mainstreaming in Water Sector	UNESCO i-WSSM
69	SS-7-3	Water & SDGs - Downscaling WATER relevant SDGs	University of Illinois at Urbana-Champaign, USA
70	SS-7-5	The Protection of Wetlands for Supporting Water Security	Northeast Institute of Geography and Agroecology, Chinese Academy of Sciences
71	SS-7-9	Special Issue of Water International: 30 Years of Water management in Basins of rivers, lakes and aquifers	International Network of Basin Organizations (INBO)
72	SS-7-13	Water Security in Guangdong-Hong Kong-Marco Greater Bay Area	Pearl River Water Resources Research Institute&Guangdong South China Hydroelectric High-Tech Development CO.,Ltd.
73	SS-7-14	Water International – the Flagship Journal of IWRA	IWRA Editorial Office
74	SS-7-16	10th World Water Forum in Bali: Pathways towards "Water for Shared Prosperity"	World Water council
75	SS-7-17	From Land to Sea: Engaging in Solutions with the World Water Envoys	IWRA
